

## Overview of our Glue and kits

Scalecast only provide very low quantities of our glue products, these are used daily in the model scenery and craft hobbies and are all readily available products used in today's marketplace. We have tested many brands and derivatives, in order to supply the best products for the hobbies and crafts that we supply, such as casted plaster parts etc. With all chemical products, the appropriate care should be used. We have provided the following care sheet for your information, and this should be referred to in any situation.

The containers we supply our products in are specifically designed to carry the glue products and are safe to keep as storage. You should not mix any chemicals together as this may have an adverse effect.

## PVA – White Casting Glue

### **Storage:**

Store in a cool, dry area, out of direct sunlight. Keep containers sealed tight when not in use.

### **Classification:**
